With sincerest thanks to **www.derHausfreund.info**

Strongly influenced by events and interactions from diverse sources in the moment they occur such as travels, people, words, phrases, sounds, ideas, and emotions, the Canadian artist Mareike Lee amasses these elements and fragments in a non-linear fashion over time. Translated into objects, drawings, photos, sound, video, and books, Lee has developed several site-specific installations. The exhibitions are a combination of cumulative processes and spontaneous decision-making dependent on the context.

Using the glass and concrete box-structure of the A trans Pavilion as a template, Mareike Lee will create an installation that makes the boundaries between inside and outside porous and not so clear-cut. Made with simple means, it will be a set-up of confrontations and invitations for the visitor that calls into question self-awareness and endlessness, and echoes aspects of how we negotiate our way through the everyday. *"Jede Minute ist anders erlebt. Von jedem Standpunkt sieht alles wieder anders aus."* (Mareike.Lee)

The **opening reception** will take place on **Saturday, 4 July 2009 at 4 pm**. You and your friends are cordially invited.
